14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

1. This modification updates the Contract Value, Award Fee and Incentive Fee. Contract Value is changed to $105,000,574 from $98,780,900, an increase of $6,219,674.
(See Page 2 of modification for details.)

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

2. This contract modification incorporates the following changes to the contract:

Section B, Table B-1 is updated to reflect the most current value of the work authorized as identified in Attachment J-10, Contract Value, Award Fee and Incentive Fee.

Section B, Table B-2 is updated to reflect the most current Adjusted Target Costs and Available Award Fee as identified in Attachment J-10, Contract Value, Award Fee and Incentive Fee.

Section B, Table B-3 is updated to reflect the most current Available Incentive Fee as identified in Attachment J-10, Contract Value, Award Fee and Incentive Fee and the most current Completed Work for Others and Incentive Fee Earned-to-Date.

Section B, Table B-4 is updated to reflect the contract value increase of $6,219,674 for a total contract value of $105,000,574.

Section J – LIST OF ATTACHMENTS; Attachment J-10, Contract Value, Award Fee and Incentive Fee, is updated to reflect the most current value of the work authorized on the contract. The contents of the task orders listed in contract Attachment J-10 are hereby incorporated by reference. Page 32 of the attachment incorporates an adjustment for Contract Year 3 to actual costs. Actual Total Estimated Cost of [redacted] was obtained from the contractor's NF 533M Report submitted as of September 30, 2005. The result is an upward adjustment of [redacted] Total Estimated Cost (Target) of [redacted] A downward adjustment to Award Fee of [redacted] removes unearned Award Fee as a result of actual Earned Award Fee in the amount of [redacted] The net adjustment is an increase of [redacted] to [redacted] from [redacted]

3. The following page changes shall be made to the contract to incorporate the above modifications:

Section B

Replace page 5 with the attached revised page 5.
Replace page 7 with the attached revised page 7.
Replace page 8 with the attached revised page 8.
Replace page 13.1 with the attached revised page 13.1.

Section J; Attachment J-10

Replace pages 1 through 54 with the attached revised pages 1 through 48.

4. All other terms and conditions remain unchanged.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

** Equals sum of all WFO completed during the contract period.
*** Earned-to-Date means as of the contract modification reflected in the upper corner of this page.

(c) Determination of EAF

The amount of award fee earned by the contractor shall be determined in accordance with contract clause G.2 and Attachment J-3, Performance Surveillance and Award Fee Plan.

(d) Determination of EIF

(1) Computation of EIF

The EIF during each contract period will be determined upon completion of each instance of Work for Others (WFO) or after a significant change in AIF, but no more frequently than monthly, using the following formula:

I.9 AUTHORIZED DEVIATIONS IN CLAUSES (FAR 52.252-6)(APR 1984)

H.23 ACCESS TO SENSITIVE INFORMATION (NFS 1852.237-72)(JUNE 2005)

(a) As used in this clause, "sensitive information" refers to information that a contractor has developed at private expense, or that the Government has generated that qualifies for an exception to the Freedom of Information Act, which is not currently in the public domain, and which may embody trade secrets or commercial or financial information, and which may be sensitive or privileged.

(b) To assist NASA in accomplishing management activities and administrative functions, the Contractor shall provide the services specified elsewhere in this contract.

(c) If performing this contract entails access to sensitive information, as defined above, the Contractor agrees to -

(1) Utilize any sensitive information coming into its possession only for the purposes of performing the services specified in this contract, and not to improve its own competitive position in another procurement.

(2) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(3) Allow access to sensitive information only to those employees that need it to perform services under this contract.

(4) Preclude access and disclosure of sensitive information to persons and entities outside of the Contractor's organization.

(5) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in this contract and to safeguard it from unauthorized use and disclosure.

(6) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(7) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(d) The Contractor will comply with all procedures and obligations specified in its Organizational Conflicts of Interest Avoidance Plan, which this contract incorporates as a compliance document.

(e) The nature of the work on this contract may subject the Contractor and its employees to a variety of laws and regulations relating to ethics, conflicts of interest, corruption, and other criminal or civil matters relating to the award and administration of government contracts. Recognizing that this contract establishes a high standard of accountability and trust, the Government will carefully review the Contractor's performance in relation to the mandates and restrictions found in these laws and regulations. Unauthorized uses or disclosures of sensitive information may result in termination of this contract for

default, or in debarment of the Contractor for serious misconduct affecting present responsibility as a government contractor.

(f) The Contractor shall include the substance of this clause, including this paragraph (f), suitably modified to reflect the relationship of the parties, in all subcontracts that may involve access to sensitive information

H.24 RELEASE OF SENSITIVE INFORMATION (1852.237-73) (JUNE 2005)

(a) As used in this clause, "sensitive information" refers to information, not currently in the public domain, that the Contractor has developed at private expense, that may embody trade secrets or commercial or financial information, and that may be sensitive or privileged.

(b) In accomplishing management activities and administrative functions, NASA relies heavily on the support of various service providers. To support NASA activities and functions, these service providers, as well as their subcontractors and their individual employees, may need access to sensitive information submitted by the Contractor under this contract. By submitting this proposal or performing this contract, the Contractor agrees that NASA may release to its service providers, their subcontractors, and their individual employees, sensitive information submitted during the course of this procurement, subject to the enumerated protections mandated by the clause at 1852.237-72, Access to Sensitive Information.

(c)(1) The Contractor shall identify any sensitive information submitted in support of this proposal or in performing this contract. For purposes of identifying sensitive information, the Contractor may, in addition to any other notice or legend otherwise required, use a notice similar to the following:

Mark the title page with the following legend:

> This proposal or document includes sensitive information that NASA shall not disclose outside the Agency and its service providers that support management activities and administrative functions. To gain access to this sensitive information, a service provider's contract must contain the clause at NFS 1852.237-72, Access to Sensitive Information. Consistent with this clause, the service provider shall not duplicate, use, or disclose the information in whole or in part for any purpose other than to perform the services specified in its contract. This restriction does not limit the Government's right to use this information if it is obtained from another source without restriction. The information subject to this restriction is contained in pages [insert page numbers or other identification of pages].

Mark each page of sensitive information the Contractor wishes to restrict with the following legend:
Use or disclosure of sensitive information contained on this page is subject to the restriction on the title page of this proposal or document.

(2) The Contracting Officer shall evaluate the facts supporting any claim that particular information is "sensitive." This evaluation shall consider the time and resources necessary to protect the information in accordance with the detailed safeguards mandated by the clause at 1852.237-72, Access to Sensitive Information. However, unless the Contracting Officer decides, with the advice of Center counsel, that reasonable grounds exist to challenge the Contractor's claim that particular information is sensitive, NASA and its service providers and their employees shall comply with all of the safeguards contained in paragraph (d) of this clause.

(d) To receive access to sensitive information needed to assist NASA in accomplishing management activities and administrative functions, the service provider must be operating under a contract that contains the clause at 1852.237-72, Access to Sensitive Information. This clause obligates the service provider to do the following:

(1) Comply with all specified procedures and obligations, including the Organizational Conflicts of Interest Avoidance Plan, which the contract has incorporated as a compliance document.

(2) Utilize any sensitive information coming into its possession only for the purpose of performing the services specified in its contract.

(3) Safeguard sensitive information coming into its possession from unauthorized use and disclosure.

(4) Allow access to sensitive information only to those employees that need it to perform services under its contract.

(5) Preclude access and disclosure of sensitive information to persons and entities outside of the service provider's organization.

(6) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in its contract and to safeguard it from unauthorized use and disclosure.

(7) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this contract.

(8) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, report any breaches to the Contracting Officer, and implement any necessary corrective actions.

(e) When the service provider will have primary responsibility for operating an information technology system for NASA that contains sensitive information, the service provider's contract shall include the clause at 1852.204-76, Security

Requirements for Unclassified Information Technology Resources. The Security Requirements clause requires the service provider to implement an Information Technology Security Plan to protect information processed, stored, or transmitted from unauthorized access, alteration, disclosure, or use. Service provider personnel requiring privileged access or limited privileged access to these information technology systems are subject to screening using the standard National Agency Check (NAC) forms appropriate to the level of risk for adverse impact to NASA missions. The Contracting Officer may allow the service provider to conduct its own screening, provided the service provider employs substantially equivalent screening procedures.

(f) This clause does not affect NASA's responsibilities under the Freedom of Information Act.

(g) The Contractor shall insert this clause, including this paragraph (g), suitably modified to reflect the relationship of the parties, in all subcontracts that may require the furnishing of sensitive information.

UNIVERSITY-AFFILIATED SPACEPORT TECHNOLOGY DEVELOPMENT CONTRACT (USTDC)

ASRC Policy

Subject: Organizational Conflict of Interest (OCI)

Purpose:

The purpose of this policy is to document ASRC's commitment to comply with OCI regulations and procedures and to ensure that (1) U.S. Government interests are protected, (2) neither ASRC nor its affiliates or subcontractors receive unfair competitive advantage, (3) ASRC's objectivity and judgment are not biased because of its present or planned interests that relate to USTDC work, and (4) proprietary information is adequately protected from unauthorized use or disclosure by ASRC employees, affiliates, and subcontractors.

General:

ASRC at Kennedy Space Center is dedicated to identifying, avoiding, and mitigating OCI, whether actual, potential, or perceived, in all USTDC activities. It is the policy of ASRC to fully comply with the following OCI regulations and any specific OCI provisions contained in applicable requests for proposals (RFPs) and contracts:

a. University-Affiliated Spaceport Technology Development Contract (NAS10-03006)

b. Procurement Integrity Act (41 U.S.C. 423)

c. Federal Acquisition Regulation (FAR) 9.5 and other applicable CFR

d. All other applicable NASA policies and procedures

The work to be performed on the USTDC may require access to ideas, procedures, systems, and confidential information provided and held in trust by employees of the Government or private companies and contractors. ASRC, on behalf of its employees, affiliates, and subcontractors, will preserve the integrity of such entrusted information and take deliberate steps to ensure that the possession of such information does not result in actual or perceived OCI.

Preventing OCI:

ASRC has made a definitive commitment to establishing ethical corporate business practices. To that end, all ASRC employees are required to participate in an annual OCI awareness and prevention training course. Directors, managers, and supervisors are required to participate in a more comprehensive annual course. All employees who have procurement responsibilities are required to participate in additional training in procurement integrity. This may include, but is not limited to ethics training, specific OCI awareness training, and training for understanding of written management policies.

To ensure ASRC, its affiliates, or its subcontractors are not provided an unfair competitive advantage by virtue of access to proprietary information belonging to others, and to comply with the provisions of the USTDC and FAR 9.505-4, as well as other applicable regulations, ASRC shall enter into a nondisclosure agreement with the disclosing party prior to receipt of any proprietary data (Attachment A). This agreement will require the exercise of diligent effort to protect such proprietary data from unauthorized use or disclosure. This includes a limitation of future contracting as set forth in the USTDC (NAS10-03006):

> *If the Contractor, under the terms of this contract, or through the performance of tasks pursuant to this contract, is required to develop specifications or statements of work to be incorporated into a solicitation, the Contractor and any of its subcontractors shall be ineligible to perform the work described in that solicitation as a prime or first-tier subcontractor under an ensuing NASA contract. This restriction shall remain in effect for a reasonable time, as agreed to by the Contracting Officer and the Contractor, sufficient to avoid unfair competitive advantage or potential bias (this time shall in no case be less than the duration of the initial production contract). NASA shall not unilaterally require the Contractor to prepare such specifications or statements of work under this contract.*

Task Order/Subcontract Work Review:

All work that flows down from NASA either in the form of a Task Order or as a resultant subcontract from ASRC will be reviewed by ASRC and any particpating USTDC Team Member or subcontractor for potential OCI. As part of the review of the statement of work and development of the Task Order Plan, ASRC Task Order Managers will work with the USTDC Team Members or potential subcontractors to identify and agree to mitagate any potential for OCI. All participants assigned work under the USTDC will have a complete and thorough OCI Plan prior to assignment of any work and sign an OCI Agreement with ASRC (Attachment B). Reviews will include assessment of potential in all areas of work including system engineering work, preparation of statements of work, the providing of technical direction and the preparation of specifications. Analysis is not to be limited to current conflicts but will also look for future

potential conflicts based on the proprietary and sensitive information included in the task order. Any OCI identified will require a mitigation plan to be submitted before the assignment of the work or, if no OCI is identified, a statement to that effect (Attachment B).

Resolving Actual or Potential OCI:

Upon discovery of actual or potential OCI with respect to the USTDC, a prompt and full disclosure shall be provided in writing to the NASA contracting officer, which shall include a description of ASRC's proposed actions to resolve, avoid, or mitigate the conflict. ASRC shall carry out the resulting directions of the contracting officer and modify, if necessary, its OCI policy, stated herein.

Replace pages 1 through 48 with the attached revised pages 1 through 54. not available

4. All other terms and conditions remain unchanged.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Table B-1

Option 4				
10/01/10 - 9/30/11				
Option 5				
10/01/11 - 9/30/12				
Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

2. Pursuant to contract clause G.2, NFS 1852.216-76, AWARD FEE FOR SERVICE CONTRACTS (JUN 2000)(MODIFIED), this contract modification incorporates an adjective rating of Excellent, a performance rating of 95, and earned award fee of $1,175,438 for the period of October 1, 2004 through September 30, 2005. Cumulative provisional award fee payments made during this evaluation period were $891,861; therefore the **NET AMOUNT DUE is $283,577**. Contract tables B-1 and B-2 are updated to reflect available and earned award fee.

3. The following page changes shall be made to the contract to incorporate the above modifications:

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

*** Earned-to-Date means as of the contract modification reflected in the upper corner of this page.

(c) Determination of EAF

The amount of award fee earned by the contractor shall be determined in accordance with contract clause G.2 and Attachment J-3, Performance Surveillance and Award Fee Plan.

(d) Determination of EIF

(1) Computation of EIF

The EIF during each contract period will be determined upon completion of each instance of Work for Others (WFO) or after a significant change in AIF, but no more frequently than monthly, using the following formula:

4. All other terms and conditions remain unchanged.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

** Equals sum of all WFO completed during the contract period.
*** Earned-to-Date means as of the contract modification reflected in the upper corner of this page.

(c) Determination of EAF

The amount of award fee earned by the contractor shall be determined in accordance with contract clause G.2 and Attachment J-3, Performance Surveillance and Award Fee Plan.

(d) Determination of EIF

(1) Computation of EIF

The EIF during each contract period will be determined upon completion of each instance of Work for Others (WFO) or after a significant change in AIF, but no more frequently than monthly, using the following formula:

B.3 CONTRACT FUNDING (NFS 18-52.232-81) (JUN 1990)

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

1. This modification incorporates changes to contract attachment J-8 ASRC TEAM INVESTMENT PROFILE and J-5B UNIVERSITY OF CENTRAL FLORIDA (UCF) TASK ORDER PRICING RATE SCHEDULE.

(See Continuation Page)

Except at provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

2. The ASRC Team Investment Profile, contract attachment J-8, is being amended to reflect a redirection of several proposed investments towards the creation of a Spaceport Nanotechnology and Self-Healing Applications Center (SNASAC). This contract change does not relieve ASRC Aerospace of their commitment to investing in the USTDC and the Spaceport Technology Product Lines, nor does it change the total amount of investment originally proposed.

3. The UCF Task Order Pricing Rate Schedule, contract attachment J-5B, is being amended to add an additional labor classification and to update out year rates based on more current cost information provided by UCF.

4. The following pages changes shall be made to incorporate the above changes:

Attachment J-5B UCF Task Order Pricing Rate Schedule

Replace pages 1 and 2 with the attached revised pages 1 and 2.

Attachment J-8 ASRC Team Investment Profile

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

1. This modification adds incremental funding to the contract in the net amount of $3,113,040 for a total contract obligation amount of $63,753,304.55. This action obligates $3,545,436 from PR 4200117965 and de-obligates $432,396 of existing contract funding resulting in a net increase of $3,113,040. The funding is considered to be adequate for contract performance through September 30, 2005.
2. The following page changes shall be made to the contract to incorporate the above modification:

   Section B: Replace page 13 with the attached revised page 13.

3. All other terms and conditions remain unchanged.

Except at provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

Section J; Attachment J-10

Replace pages 1 through 42 with the attached revised pages 1 through 42.

4. All other terms and conditions remain unchanged.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Table B-1

Contract Value

Contract Period	Estimated Cost*	Award Fee**	Incentive Fee***	Contract Value
Base Period	(b)(4)

Option 4				
10/01/10 - 9/30/11				
Option 5				
10/01/11 - 9/30/12				
Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

Totals:			

* Equals sum of the contract period AIF for all task orders issued within each contract period. However, if unearned IF is carried over to a subsequent period, then the AIF will equal the value of the carried over IF plus the AIF for all task orders issued within that contract period.
** Equals sum of all WFO completed during the contract period.
*** Earned-to-Date means as of the contract modification reflected in the upper corner of this page.

(c) Determination of EAF

The amount of award fee earned by the contractor shall be determined in accordance with contract clause G.2 and Attachment J-3, Performance Surveillance and Award Fee Plan.

(d) Determination of EIF

(1) Computation of EIF

The EIF during each contract period will be determined upon completion of each instance of Work for Others (WFO) or after a significant change in AIF, but no more frequently than monthly, using the following formula:

B.3 CONTRACT FUNDING (NFS 18-52.232-81) (JUN 1990)

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning one (1) copy of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATA SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and data specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

Net increase in obligation amount of $706,755

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 3 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

1. The purpose of this modification is to add incremental funding and to make other changes in terms and conditions as described below.

(See Continuation Page)

Except at provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

2. This contract modification incorporates the following changes to the contract:

   a. This modification adds incremental funding to the contract in the amount of $705,755 for a total contract obligation amount of $58,886,419.55. The funding is considered to be adequate for contract performance through August 19, 2005.
   b. Section B – SUPPLIES OR SERVICES AND PRICE/COSTS, paragraph B.2.d is amended to incorporate language to change the Work For Others (WFO) Earned Incentive Fee (EIF) calculation to address the use of directly funded KSC Civil Service labor on approved WFO projects and also to allow the Contractor to bill for a portion of the EIF at the end of each Contract Year on approved multi-year WFO projects.
   c. Section H – SPECIAL CONTRACT REQUIRERMENTS, clause H.18 WORK FOR OTHERS, paragraph B, is amended to add language to address WFO efforts performed at other Government and Contractor facilities.

3. The changes described above have resulted additional pages in the contract schedule. While many pages have been renumbered only a few actual changes have been made to the content and those changes are clearly marked with change bars. The following page changes shall be made to the contract to incorporate the above modifications:

Section B

Replace pages 8 and 9 with the attached revised pages 8 and 9.
Replace page 13 with the attached revised page 13.

Section H

Replace pages 43 through 52 with the attached revised pages 43 through 53.

Section I

Replace pages 53 through 61 with the attached revised pages 54 through 62.

Section J, Table of Contents

Replace page 62 with the attached revised page 63.

4. All other terms and conditions remain unchanged.

** Equals sum of all WFO completed during the contract period.
*** Earned-to-Date means as of the contract modification reflected in the upper corner of this page.

(c) Determination of EAF

The amount of award fee earned by the contractor shall be determined in accordance with contract clause G.2 and Attachment J-3, Performance Surveillance and Award Fee Plan.

(d) Determination of EIF

(1) Computation of EIF

The EIF during each contract period will be determined upon completion of each instance of Work for Others (WFO) or after a significant change in AIF, but no more frequently than monthly, using the following formula:

$$EIF = AIF \times \frac{\text{Cumulative actual value of completed WFO + KSCL}}{\text{Target value of WFO}}$$

where,

AIF = cumulative incentive fee that becomes available within each contract period in accordance with Subsection (b), above, plus any unearned incentive fee carried over from a prior contract period.

Cumulative = sum of all the instances of WFO completed during a contract period.

Actual value = shall be based upon the final amount payable to the contractor by its customer after resolution of any adjustments.

KSCL = KSC Civil Servant Labor supporting the approved project but directly funded by the customer. Directly funded means that funding for KSC civil service labor was provided directly to the KSC Chief Financial Office by another Government entity and was not included as a reimbursable cost by the Contractor in their WFO Project Approval submittal.

Completed = when an instance of WFO has been finished, its final value agreed to by the contractor and its customer, and all costs and/or fees due the Government associated therewith, if any, have been reimbursed. As each instance of WFO is completed the contractor shall so notify the Contracting Officer in writing with such appropriate documentation as the Contracting Officer may require and, upon verification thereof, the Contracting Officer will modify Table B-3 accordingly. For EIF determination purposes an instance of WFO will be counted in the contract period in which it is completed. On approved multi-year WFO projects, the Contractor may bill for a portion of the EIF at the end of each Contract Year. The amount of EIF will be based on the value of the completed work on the WFO project during the Contract Year.

Target value of WFO = total value of WFO anticipated in each contract period as follows:

performing services, or for any administrative or general plant purpose), special tooling and special test equipment. Facilities do not include materials.

Government Material -- Property that may be incorporated into or attached to an end item or consumed or expended during manufacture, testing or providing services.

B. AGREEMENTS & APPROVALS

The Contractor shall obtain approval of the Contracting Officer for Work for Others (WFO) before committing to perform the work. The Contractor shall informally partner with the Government to identify and discuss potential WFO as far in advance of seeking formal approval as is practical. The Contractor shall obtain formal approval for each instance of WFO by submitting a written request to the Contracting Officer which, at a minimum, shall contain the following information, terms, and conditions:

1. Name and address of the customer.
2. Description of the work to be performed and estimated contract value.
3. Identification of the KSC resources/facilities and Government personnel required for accomplishing the work (including the estimated number of labor hours and estimated cost of support needed).
4. An explanation of the unique nature of the Government-owned facilities and/or USTDC/Government expertise (or combinations thereof) that is not available from commercial sources and justify acceptance of the work.
5. Schedule for accomplishment of the work and impact, if any, on other ongoing activities.
6. Certification that the following terms and conditions are flowed down, when applicable, to the proposed WFO agreement:

   H.18 "Work for Others," subparagraphs (D) Priority of Use, (E) Liability and Risk of Loss, (F) Intellectual Property, Patent & Invention Rights, (G) News Releases & Publications, (H) Security & Export Control, (I) Safety & Health, (J) Independence of Contracts; and other clauses as may be required by the Contracting Officer.

7. A copy of the WFO draft agreement, if available. If the draft agreement is not available prior to submittal of the request, the Contractor will provide a copy of the agreement to the Government before commencement of work.

If the approved project includes work that is to be performed at another Federal Government installation or at contractor facilities, the total value of the effort will be counted toward the overall WFO goal, as established in the Contractor's Internal Surveillance Plan (ISP) (DRD-002), but will not be included in the Earned Incentive Fee (EIF) calculation described in Paragraph B.2(d) of the USTDC contract.
The only effort included in the EIF calculation will be the completed value of the effort performed at KSC plus any directly funded KSC civil service labor approved for the project.

C. FINANCIAL OBLIGATIONS

1. General

a. The Contractor shall provide consideration to NASA KSC in connection with Government-provided property and services utilized for Work for Others under the authority of this provision. Pursuant to the direction of the Contracting Officer, consideration may be in the form of cash payment from the Contractor to NASA KSC or a credit to the Government under the USTDC contract.

b. The specific cost components, reimbursement procedures, methodologies, and points of contact and authorities will be established annually in a written procedure.

Generally, reimbursable and creditable costs will include, but may not be limited to the following categories:

- Rent or other appropriate consideration for use of Government property in accordance with FAR 45.403 and FAR 45.404(c).

- Actual cost of Government personnel directly supporting a project (including payroll additives, fringe benefits and G&A).

- Actual cost of Government-provided material, utilities, support services and appropriate overheads.

2. Reimbursement of Government Direct Labor and Other NASA Costs

a. The Contractor will be required to forward advance payments to NASA for all estimated NASA reimbursable costs prior to commencement of work associated with an approved WFO project. For multi-year WFO projects, the Contractor may propose an alternate payment schedule subject to the approval of the Government.

b. Payment shall be made in the form of a check payable to "NASA Kennedy Space Center" and sent to:

National Aeronautics and Space Administration
John F. Kennedy Space Center
"Collections Agent"
Mail Code: GG-B-C
Kennedy Space Center, FL 32899

c. NASA KSC's activities under or pursuant to this provision are subject to the availability of appropriated funds, and no provision herein shall be interpreted to require obligations or payment of funds in violation of the Anti-Deficiency Act, 31 U.S.C. § 1341.

D. PRIORITY OF USE

It will be the Contractor's overall responsibility to schedule and manage use of assigned Government-furnished facilities to accommodate contract work and Work for Others in a manner to assure the timely, within cost, delivery of quality products and services for all. Since Work for Others projects are subject to Government approval and each request for approval will address scheduling issues, scheduling and priority of use conflicts should be rare. However, in the event circumstances should arise in which the Government requires use of facilities and/or personnel scheduled for use on Work for Others, the Contracting Officer will direct that the Government work shall take precedence and the Contractor shall immediately proceed with the Government work. NASA will make every reasonable effort to ensure that ongoing and planned Work for Others is not impacted and the exercise of the authority herein stated to require displacement of Work for Others in order to accomplish Government work will be exercised only to the extent necessary to protect the interests of the Government. Such direction will be given only after the Center Director makes a determination that a federal emergency or an event of significant public interest requires the exercise of Government priority.

E. LIABILITY AND RISK OF LOSS

1. General

a. The Contractor and Other(s) waive and agree not to make any claims against the U.S. Government or U.S. Government Contractors or subcontractors, for damage arising from or related to activities under this provision, whether such damage is caused by negligence or otherwise, except in the case of willful misconduct.

b. In addition, the Contractor and Other(s) agree to indemnify and hold the U.S. Government or its Contractors or subcontractors harmless from any claim, judgment, or cost arising from the injury to or death of any person, or for damage to or loss of any property, including U.S. Government property, as a result of activities under this provision, whether such damage is caused by negligence or otherwise, except in the case of willful misconduct.

c. In the event that Other(s) will need to directly participate in Work for Others activities at KSC, the Other(s) will be required to have the same insurance coverage as the USTDC contractor under contract clause H.4, "Minimum Insurance Coverage" (NASA 1852.228-75), unless Other(s) is statutorily authorized to self-insure. Additionally, in those circumstances where the Work for Others activities will involve hazardous operations that place government facilities at risk, the Contracting Officer may require that the Other(s) provide property damage insurance, or an agreement on an alternative method of protection, as discussed in contract clause H.18.E.2

2. Insurance for Damage to NASA Property

a. For purposes of this article, the following definitions shall be applicable:

(1). "Liability" shall include payments made pursuant to United States' treaty, any judgment by a court of competent jurisdiction, administrative and litigation costs, and settlement payments.
(2). "Damage" shall mean bodily injury to, or other impairment of health of, or death of any person; damage to, loss of, or loss of use of any property; soil, sediment, surface water, ground water, or other environmental contamination or damage; loss of revenue or profits; other direct damages; or any indirect, or consequential damage arising therefrom.

b. Damage to Government Property:

(1). Where required by NASA, within a reasonable time before Other(s) begin to have access to or use of U.S. Government property or services, Other(s) shall obtain or arrange to obtain, at no cost to NASA, insurance to cover the cost of replacing, repairing, or the fair market value of, as reasonably determined by the U.S. Government, any U.S. Government property (real or personal), which property is damaged as a result of any performance of this agreement, including performance by the U.S. Government or the U.S. Government's contractors or subcontractors. Upon obtaining the insurance required under this paragraph, or upon obtaining any modification or amendment thereof, Other(s) shall personally deliver, or send by registered or certified mail, postage prepaid, two copies of such insurance policy, or such modification or amendment, to NASA at the following address, or at such address as NASA may, from time to time, designate in writing:

National Aeronautics and Space Administration
Office of the Chief Counsel
Mail Code CC
Kennedy Space Center, FL 32899

(2). The insurance required under this subparagraph shall provide coverage in an amount acceptable to NASA. All terms and conditions in the policy shall be acceptable to NASA, and shall require 30 days notice to NASA of any cancellation or change affecting coverage. The policy shall name the United States as an insured and shall cover all risks of loss except that it may exclude damage caused by the U.S. Government's willful misconduct. The insurance policy shall provide that the insurer waives its right as a subrogee against U.S. Government contractors, subcontractors, or related entities for damage.

(3). In the event Other(s) is unable to obtain insurance coverage required by subparagraph b(1) above, the parties agree to consider, subject to review, approval and agreement by NASA, alternative methods of protecting U.S. Government property (e.g., by an agreement to indemnify the U.S. Government for such damages).

(4). An insurance policy whose terms and conditions are reviewed and approved by NASA, or an agreement on an alternative method of protection, is a condition precedent to Other(s)' access to or use of U.S. Government property or U.S. Government services under this agreement.

F. INTELLECTUAL PROPERTY, PATENT AND INVENTION RIGHTS

The following intellectual property provisions apply to the activities of Government personnel directly supporting the Contractor's Work for Others pursuant to this provision.

1. General:
   Data exchanged between NASA, the Contractor and/or other party(s) in support of Work for Others will be exchanged without restriction as to its disclosure, use or duplication except as otherwise marked or as otherwise provided in this provision. No preexisting proprietary data will be provided by NASA under this agreement unless specifically authorized, in writing, by the owner of the proprietary data.

2. Data First Produced by NASA:
   As to data first produced by NASA in carrying out NASA's responsibilities in support of Work for Others and which data would embody trade secrets or would comprise commercial or financial information that is privileged or confidential if it had been obtained from the Contractor or other party(s), such data will, to the extent permitted by law, be appropriately marked with a notice or legend and maintained in confidence for a period of time to be agreed upon after development of the information, with the express understanding that, during the aforesaid period, such data may be disclosed and used by NASA under suitable protective conditions, for the express purpose of carrying out NASA's responsibilities in support of Work for Others. Upon completion of these activities, such data will be disposed of as requested by the Contractor and/or other party(s).

3. Data First Produced by Contractor and/or other party(s):
   In the event it is necessary for the Contractor and/or the other party(s) to furnish NASA with data that either existed prior to, was produced outside of, or is first produced by the Contractor and/or other party(s) in carrying out the Contractor's and/or other party(s) responsibilities in support of Work for Others, and such data embody trade secrets or comprise commercial or financial information that is privileged or confidential and such data is so identified with a suitable notice or legend, the data will be maintained in confidence and disclosed and used by NASA and its Contractors, under suitable protective conditions, only for the purpose of carrying out NASA's responsibilities in support of Work for Others. Upon completion of these activities, such data will be disposed of as requested by the owner of the data.

4. Data Disclosing an Invention:
   In the event data exchanged between NASA and the Contractor and/or other party(s) discloses an invention for which patent protection is considered and the furnishing party specifically so identifies such data, the receiving party agrees to withhold such data from public disclosure for a reasonable time (presumed to be 1 year unless otherwise mutually agreed to) in order for patent protection to be obtained.

Copyright:

In the event data is exchanged with a notice indicating that the data is protected under copyright, such data will be presumed to be published and the following paid-up license shall apply:

a. If it is indicated on the data that the data existed prior to, or was produced outside of this provision, the receiving party and others acting on its behalf, may reproduce, distribute, and prepare derivative works for the purpose of carrying out the receiving party's responsibilities under this provision.

b. If the furnished data does not contain the indication of (1) above, it will be assumed that the data was first produced in support of Work for Others, and the receiving party and others acting on its behalf, may reproduce, distribute, and prepare derivative works for any of its own purposes whatsoever.

5. Disclaimer of Liability:

Notwithstanding the above, NASA shall not be restricted in, nor incur any liability for, the disclosure and use of Data not identified with a suitable notice or legend as set forth in paragraph 3 above. Information contained in any data for which disclosure and use is restricted under paragraphs 2 and 3 above, if such information is or becomes generally known without breach of the above, is known to or is generated by NASA independently of carrying out NASA's responsibilities in support of Work for Others, is rightfully received from a third party without restriction, or is included in data which the Contractor and/or other party(s) has, or is required to furnish to the U.S. Government without restriction on disclosure and use.

6. Data Subject to Export Control:
Technical data, whether or not specifically identified or marked, that is subject to the export control laws and regulations of the United States and that is provided to the Contractor and/or other party(s) in support of Work for Others will be treated as such, and will not be further provided to any foreign persons without proper U.S. Government authorization, where required.

7. NASA Inventions:
NASA will use reasonable efforts to report inventions made by NASA employees as a consequence of the performance of specified NASA activities in support of Work for Others. Upon request, NASA will use reasonable efforts to grant the Contractor and/or other party(s), in accordance with the requirements of 37 CFR Part 404 an exclusive, irrevocable, royalty-free license, except for the repayment of U.S. Government prosecution costs, on terms to be subsequently negotiated to any NASA invention that may be in support of Work for Others and on which NASA decides to file a patent application. This license will be subject to the rights reserved in paragraph 10, below.

8. Joint Inventions with Contractor and/or other party(s):
NASA and the Contractor and/or other party(s) agree to use reasonable efforts to identify and report to each other any inventions made jointly between NASA employees and employees of the Contractor and/or other party(s). Upon request, NASA will agree to refrain from exercising its undivided interest in a manner inconsistent with the Contractor and/or other party(s) commercial interests and to cooperate with the Contractor and/or other party(s) in obtaining patent protection on the Contractor and/or other party(s) undivided interest, subject to the applicable rights reserved in paragraph 10, below.

9. Rights to be Reserved in the Contractor and/or Other Party(s) License:
Any license granted to the Contractor and/or other party(s) pursuant to paragraphs 9 or 10 above will be subject to the reservation of the following rights:

As to inventions made solely by, or jointly between NASA and the Contractor and/or other party(s), the irrevocable, royalty-free right of NASA to practice or have practiced the invention by or on behalf of NASA for research, experimental or demonstration purposes.

10. Protection of Reported Inventions:
When inventions are reported and disclosed between the parties in accordance with the provisions of this clause, the receiving party agrees to withhold such reports or disclosures from public access for a reasonable time, presumed to be one year unless otherwise mutually agreed, in order to facilitate the allocation and establishment of the invention and patent rights under these provisions.

11. Patent Filing Responsibilities and Costs:

The invention and patent rights set forth herein shall apply to any patent applications filed and patents obtained in any country, and each party is responsible for its own costs of preparing, prosecuting, issuing, and maintaining patents covering sole inventions in any country; except NASA and the Contractor and/or other party(s) may, upon the reporting of any invention (sole or joint) or in any license option granted, mutually agree otherwise for any country as to patent application preparation, filing and prosecution responsibilities and costs, and maintenance responsibilities and costs.

G. NEWS RELEASES AND PUBLICATIONS

The parties (NASA, the USTDC Contractor, & Others) agree to coordinate in advance any news releases and/or widely distributed publications that result from activities performed pursuant to this provision. This coordination shall entail notifying the respective points of contact of the proposed news release or publication in sufficient time to allow the other party an opportunity to review and comment as deemed appropriate. None of the parties shall issue a news release or publication prior to the consent of the respective parties' points of contact.

H. SECURITY & EXPORT CONTROL

Access to and use of NASA KSC facilities by Other(s) will be subject to instructions and procedures as described in Kennedy Handbook KHB 1610.1, Revision C "KSC Security Handbook", and NASA Policy Directive NPD 1371.5 "Coordination and Authorization of Access by Foreign Nationals and Foreign Representatives to NASA", which is applicable to NASA Headquarters and NASA Centers (including Component Facilities). In conducting Work for Others at Kennedy Space Center, the USTDC Contractor and Other(s) shall comply with all U.S. export control laws and regulations, including the International Traffic in Arms regulations (ITAR), 22 CFR Parts 120 through 130, and the Export Administration Regulations (EAR), 15 CFR Parts 730 through 799. In the absence of available license exemptions/exceptions, the Contractor and/or Other(s) shall be responsible for obtaining the appropriate licenses or approvals, if required, for the export of hardware, technical data, and software, or for the provision of technical assistance. Additionally, should the Contractor and/or Other(s) employ foreign nationals to participate in Work for Other(s) activities at Kennedy Space Center, the Contractor / Other(s) shall be responsible for obtaining export licenses, if required, before utilizing such foreign nationals in such activities, including instances where the foreign nationals will have access to export controlled technical data or software at Kennedy Space Center facilities.

I. SAFETY & HEALTH

All agreements entered into by the USTDC Contractor with Other(s) shall incorporate the USTDC Contractor's approved Safety and Health Plan, which Plan shall be binding upon the Other(s) during the conduct of their activities at the Kennedy Space Center.

J. INDEPENDENCE OF CONTRACTS

The parties concur that this contract and the authorities and conditions of this provision are independent of any contract between the Contractor and other parties for the conduct of "Work for Others." By authorizing the Contractor to perform Work for Others, NASA makes no assurances to the Contractor or others as to performance of the objects tested in NASA facilities or other test objects, and relieves the Contractor of none of its obligations under any other contract, grant, or other agreement. This provision does not constitute NASA's endorsement of any test results, resulting designs, hardware, or other matters.

K. AGREEMENT TO ASSUME OBLIGATION TO TECHNOLOGICAL RESEARCH DEVELOPMENT AUTHORITY (CRYOGENIC TESTBED FACILITY)

The Technological Research and Development Authority (TRDA) of the State of Florida operates a program titled "Investment Initiative for Energy Technologies." Under this program the TRDA provided funds to Dynacs Engineering Company, Inc., the predecessor Contractor to this contract, for development of the KSC cryogenic testbed facility (CTF). The CTF is one of the facilities for which the Contractor shall be responsible and in which work may be conducted for Others. An agreement was

executed between TRDA and Dynacs setting forth certain obligations upon Dynacs in consideration for the funds provided by TRDA. The principal obligations are that Dynacs develop the market for and engage in the commercialization of the CTF and make royalty payments to TRDA from all non-NASA revenues received in connection therewith. No minimum royalty payments are required. The agreement was effective January 22, 1999 and has a term of ten years. The agreement provides for novation or assignment to the successor Contractor in the event NASA contracts with another company than Dynacs for operation of the CTF. Since the Contractor is the successor to Dynacs for operation of the CTF, the Contractor agrees to immediately enter into discussions with TRDA to accept assignment of and be bound by its agreement with Dynacs or to enter into a replacement agreement mutually agreeable to TRDA and the Contractor. However, in no event shall the Contractor enter into a replacement agreement without the prior review and approval of NASA.

H.19 TASK ORDERING PROCEDURE (NFS 1852.216-80)(OCT 1996)

(a) Only the Contracting Officer may issue Task Orders to the Contractor, providing specific authorization or direction to perform work within the scope of the contract and as specified in the schedule. The Contractor may incur costs under this contract in performance of Task Orders and Task Order modifications issued in accordance with this clause. No other costs are authorized unless otherwise specified in the contract or expressly authorized by the Contracting Officer.

(b) Prior to issuing a Task Order, the Contracting Officer shall provide the Contractor with the following data:

(1) A functional description of the work identifying the objectives or results desired from the contemplated Task Order.
(2) Proposed performance standards to be used as criteria for determining whether the work requirements have been met.
(3) A request for a task plan from the Contractor to include the technical approach, period of performance, appropriate cost information, and any other information required to determine the reasonableness of the Contractor's proposal.

(c) Within 15 working days after receipt of the Contracting Officer's request, the Contractor shall submit a task plan conforming to the request.

(d) After review and any necessary discussions, the Contracting Officer may issue a Task Order to the Contractor containing, as a minimum, the following:

(1) Date of the order.
(2) Contract number and order number.
(3) Functional description of the work identifying the objectives or results desired from the Task Order, including special instructions or other information necessary for performance of the task.
(4) Performance standards, and where appropriate, quality assurance standards.
(5) Maximum dollar amount authorized (cost and fees). This includes allocation of award fee among award fee periods, if applicable.
(6) Any other resources (travel, materials, equipment, facilities, etc.) authorized.
(7) Delivery/performance schedule including start and end dates.

(8) If contract funding is by individual Task Order, accounting and appropriation data.

(e) The Contractor shall provide acknowledgment of receipt to the Contracting Officer within 3 working days after receipt of the Task Order.

(f) If time constraints do not permit issuance of a fully defined Task Order in accordance with the procedures described in paragraphs (a) through (d), a Task Order which includes a ceiling price may be issued.

(g) The Contracting Officer may amend tasks in the same manner in which they were issued.

(h) In the event of a conflict between the requirements of the Task Order and the Contractor's approved task plan, the Task Order shall prevail.

H.20 ESTABLISHMENT OF THE SPACEPORT RESEARCH AND TECHNOLOGY INSTITUTE (SRTI)

The Contractor shall be responsible for establishing the Spaceport Research and Technology Institute (SRTI). In addition, the Contractor shall engage the Director of SRTI within six to eight months of contract award. For six to eight months, the Contractor shall provide an Interim Director of SRTI, located primarily at Kennedy Space Center (KSC). Both the Permanent Director of SRTI and the Deputy Director of SRTI shall be located full time at the Kennedy Space Center (KSC).

H.21 ASRC TEAM INVESTMENT PROFILE

The contractor shall provide the specific features and activities of it's investment commitment as described in Section J, Attachment 8.

H-22 NASA SYSTEM ADMINISTRATOR SECURITY CERTIFICATION PROGRAM

1. In addition to any other requirements of this contract, all individuals who perform tasks as a system administrator or have authority to perform tasks normally performed by a system administrator shall be required to demonstrate knowledge appropriate to those tasks. This demonstration, referred to as the NASA System Administrator Security Certification, is a NASA funded two-tier assessment to verify that system administrators are able to: a) Demonstrate knowledge in system administration for the operating systems for which they have responsibility and b) Demonstrate knowledge in the understanding and application of Network and Internet Security.

2. Certification is granted upon achieving a score above the certification level on both an Operating System test and the Network and Internet Security Test. The Certification earned under this process will be valid for three years. The NASA Chief Information Officer has established the criteria for this skills assessment. The objectives and procedures for this certification can be obtained by contacting the IT Security Awareness and Training Center at (216) 433-2063.

3. A system administrator is one who provides IT services, network services, files storage, web services, etc. to someone else other than themselves and takes or assumes the responsibility for the security and administrative controls of that service or machine. A lead system administrator has responsibility for information technology security (ITS) for multiple computers or network devices represented within a system; ensuring all devices assigned to them are kept in a secure configuration (patched/mitigated); and ensuring that all other system administrators under their lead understand and perform ITS duties.

4. The Contractor shall report their progress towards achieving certifications in their quarterly Internal Surveillance Report, DRD-003. The information shall include the number of individuals requiring certification and the number certified.

I.2 APPROVAL OF CONTRACT (FAR 52.204-1) (DEC 1989)

This contract is subject to the written approval of the NASA Kennedy Space Center Procurement Officer and shall not be binding until so approved.

I.3 NOTIFICATION OF COMPETITION LIMITED TO ELIGIBLE 8(a) CONCERNS (FAR 52.219-18) (JUN 1999) (DEVIATION)

(a) Offers are solicited only from small business concerns expressly certified by the Small Business Administration (SBA) for participation in the SBA's 8(a) Program and which meet the following criteria at the time of submission of offer--

(1) The Offeror is in conformance with the 8(a) support limitation set forth in its approved business plan; and

(2) The Offeror is in conformance with the Business Activity Targets set forth in its approved business plan or any remedial action directed by the SBA.

(b) By submission of its offer, the Offeror represents that it meets all of the criteria set forth in paragraph (a) of this clause.

(c) Any award resulting from this solicitation will be made directly by the Contracting Officer to the successful 8(a) offeror selected through the evaluation criteria set forth in this solicitation.

(d)(1) Agreement. A small business concern submitting an offer in its own name agrees to furnish, in performing the contract, only end items manufactured or produced by small business concerns in the United States. The term "United States" includes its territories and possessions, the Commonwealth of Puerto Rico, the trust territory of the Pacific Islands, and the District of Columbia. If this procurement is processed under simplified acquisition procedures and the total amount of this contract does not exceed $25,000, a small business concern may furnish the product of any domestic firm. This subparagraph does not apply in connection with construction or service contracts.

(2) The **ASRC Aerospace Corporation,** will notify the NASA Kennedy Space Center Contracting Officer in writing immediately upon entering an agreement (either oral or written) to transfer all or part of its stock or other ownership interest to any other party.

I.4 STATEMENT OF EQUIVALENT RATES FOR FEDERAL HIRES (FAR 52.222-42) (MAY 1989)

In compliance with the Service Contract Act of 1965, as amended, and the regulations of the Secretary of Labor (29 CFR Part 4), this clause identifies the classes of service employees expected to be employed under the contract and states the wages and fringe benefits payable to each if they were employed by the contracting agency subject to the provisions of 5 U.S.C. 5341 or 5332.

This Statement is for Information Only:

It is not a Wage Determination (Classes of Employees are based on the 2001 SF 98 submittal to the Department of Labor for Contract NAS10-98001).

CLASSES OF EMPLOYEES (Service Contract Act Title)	HOURLY WAGE RATE THAT WOULD BE PAID IF FEDERALLY EMPLOYED
Illustrator III	17.93
Secretary I	10.58
Secretary III	13.19
Word Processor II	10.58
Accounting Clerk II	9.42
General Clerk IV	10.58
Supply Technician	14.66
Drafter IV	14.66
Engineering Technician III	11.84
Engineering Technician IV	14.66
Engineering Technician V	17.93
Laboratory Technician	13.19

Fringe Benefits are as follows:

1. Paid holidays: New Year's Day, Martin Luther King's Birthday, President's Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, and Christmas Day.

2. Annual Leave: Two hours of annual leave each week for an employee with less than three years service; three hours of annual leave for an employee with three but less than fifteen years of service; and four hours of annual leave each week for an employee with fifteen or more years of service.

3. Sick Leave: Two hours of sick leave each week.

4. Life, accident and health insurance programs: Government pays 33.3% of cost for life insurance; workman's compensation covers 100% of accident; and depending on health plan chosen, Government pays up to 75% of health insurance.

5. Retirement: Employees covered under CSRS – 7% of annual rate. Employees covered under FERS - .08 basic retirement plus 1% TSP contribution and up to 4% more matching TSP contribution.

I.5 ESTIMATE OF PERCENTAGE OF RECOVERED MATERIAL CONTENT FOR EPA-DESIGNATED PRODUCTS (FAR 52.223-9) (AUG 2000)

(a) Definitions. As used in this clause--

"Postconsumer material" means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of "recovered material."

"Recovered material" means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

(b) The Contractor, on completion of this contract, shall--

(1) Estimate the percentage of the total recovered material used in contract performance, including, if applicable, the percentage of postconsumer material content; and

(2) Submit this estimate to _____TBD_____ [Contracting Officer complete in accordance with agency procedures].

I.6 CLAUSES INCORPORATED BY REFERENCE (FAR 52.252-2)(FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

http://www.arnet.gov/far

http://www.hq.nasa.gov/office/procurement/regs/nfstoc.htm

I.7 OMBUDSMAN (NFS 1852.215-84) (JUN 2000) (ALTERNATE I) (JUN 2000)

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and contractors during the pre-award and post-award phases of this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman is not to diminish the authority of the contracting officer, the Source Evaluation Board, or the selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of formal contract disputes. Therefore, before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution.

(b) If resolution cannot be made by the contracting officer, interested parties may contact the installation ombudsman,

Mr. James W. Kennedy/ Kennedy Space Center Code AA-A Kennedy Space Center, FL 32899

Telephone: (321) 867-2355 FAX: (321) 867-7787 e-mail: james.w.kennedy@nasa.gov

Concerns, issues, disagreements, and recommendations which cannot be resolved at the installation may be referred to the NASA ombudsman, the Director of the Contract Management Division, at 202-358-0422, facsimile 202-358-3083, e-mail sthomps1@hq.nasa.gov. Please do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the contracting officer or as specified elsewhere in this document.

(c) If this is a task or delivery order contract, the ombudsman shall review complaints from contractors and ensure they are afforded a fair opportunity to be considered, consistent with the procedures of the contract.

I.8 MANAGEMENT OF NASA-OWNED/CONTRACTOR-HELD RECORDS (KSC 52.245-90) (NOV 1998)

A. NASA-owned/Contractor-held records shall be maintained by the Contractor in accordance with the instructions set forth in the latest editions of NPD 1440.6F, NASA Records Management, NPG 1441.1C, NASA Records Retention Schedules, and KNPD 1440.1, KSC Records Management and Vital Records Programs. As directed by the Contracting Officer, the Contractor shall obtain prior approval from the Contracting Officer to destroy or remove records subject to this clause.

B. NASA-owned/Contractor-held records shall consist of documentation of Contractor activities and functions necessary for the performance of this contract, including, but not limited to, documentation of those day-to-day operating procedures that are essential to carrying out the statement of work and those actions, organizational structure, policies, decisions, operations, and activities necessary to perform or continue the work performed under the contract. NASA-owned/Contractor-held records shall not include those Contractor records that relate exclusively to the Contractor's internal business or are of a general nature not specifically related to the performance of work under the contract. The Contractor's general policies, procedures, etc., that apply to the general conduct of its business do not fall under the purview of this clause. When in doubt, the Contractor shall seek the Contracting Officer's determination as to which records are subject to this clause.

C. The Contractor shall ensure that NASA-owned/Contractor-held records are segregated from company-owned records and from non- record materials. This clause operates independently from and is not intended to affect, or be effected by, the Contractor records provisions contained in FAR Subpart 4.7 and the clauses referenced therein.

D. The Contractor, through the Contracting Officer, shall coordinate with the KSC Records Manager, on matters requiring advice, such as marking and segregating such records, or technical assistance in all areas of management pertaining to such records.

E. The contractor shall prepare and submit KSC Form 16-516, KSC Annual Summary of Record Holdings, on an annual basis to the KSC Records Manager.

I.9 AUTHORIZED DEVIATIONS IN CLAUSES (FAR 52.252-6)(APR 1984)

The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

The use in this solicitation or contract of any NASA FAR Supplement Regulation (48 CFR 18) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the

following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** NOTES APPLYING TO THIS WAGE DETERMINATION **

Under the policy and guidance contained in All Agency Memorandum No. 159, the Wage and Hour Division does not recognize, for section 4(c) purposes, prospective wage rates and fringe benefit provisions that are effective only upon such contingencies as "approval of Wage and Hour, issuance of a wage determination, incorporation of the wage determination in the contract, adjusting the contract price, etc." (The relevant CBA section) in the collective bargaining agreement between (the parties) contains contingency language that Wage and Hour does not recognize as reflecting "arm's length negotiation" under section 4(c) of the Act and 29 C.F.R. 5.11(a) of the regulations. This wage determination therefore reflects the actual CBA wage rates and fringe benefits paid under the predecessor contract.

Source of Occupational Title and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Third Supplement, dated March 1997, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be

conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation) and computes a proposed rate).

2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

2. Pursuant to contract clause G.2, NFS 1852.216-76, AWARD FEE FOR SERVICE CONTRACTS (JUN 2000)(MODIFIED), this contract modification incorporates an adjective rating of Excellent, a performance rating of 92, and earned award fee of $956,760 for the period of October 1, 2003 through September 30, 2004. Cumulative provisional award fee payments made during this evaluation period were $761,049; therefore the **NET AMOUNT DUE is $195,711**. Contract tables B-1 and B-2 are updated to reflect available and earned award fee.

3. This modification also updates contract clause B.2 Contract Value, Award Fee, and Incentive Fee and contract attachment J-10 to reflect the most current value of the work authorized on the contract, the contents of the task orders listed in contract attachment J-10 are hereby incorporated by reference.

4. The following page changes shall be made to the contract to incorporate the above modifications:

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

E. IMPORTANT: Contractor ☒ is not, ☐ is required to sign this document and return 3 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

1. This modification adds incremental funding to the contract in the amount of $3,932,993.27 for a total contract obligation amount of $42,890,774.55. This action obligates $4,190,068.27 from PR 4200086919 and de-obligates $257,075 of existing contract funding, resulting in a net increase of $3,932,993.27. The funding is considered to be adequate for contract performance through December 30, 2004.
2. This modification also updates contract clause B.2 Contract Value, Award Fee, and Incentive Fee and contract attachment J-10 to reflect the most current value of work authorized on the contract, the contents of which are hereby incorporated by reference.
3. All other terms and conditions remain unchanged.

(See Continuation Page)

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Table B-1

Contract Value

Contract Period	Estimated Cost*	Award Fee**	Incentive Fee***	Contract Value
Base Period

Option 4				
10/01/10 - 9/30/11				
Option 5				
10/01/11 - 9/30/12				
Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

H.6 PENSION PORTABILITY (NASA 1852.237-71)(JAN 1997)

(a) In order for pension costs attributable to employees assigned to this contract to be allowable costs under this contract, the plans covering such employees must:

(1) Comply with all applicable Government laws and regulations;

(2) Be a defined contribution plan, or a multiparty defined benefit plan operated under a collective bargaining agreement. In either case, the plan must be portable, i.e., the plan follows the employee, not the employer;

(3) Provide for 100 percent employee vesting at the earlier of one year of continuous employee service or contract termination; and

(4) Not be modified, terminated, or a new plan adopted without the prior written approval of the cognizant NASA Contracting Officer.

(b) The Contractor shall include paragraph (a) of this clause in subcontracts for continuing services under a service contract if:

(1) The prime contract requires pension portability;

(2) The subcontracted labor dollars (excluding any burdens or profit/fee) exceed $2,500,000 and ten percent of the total prime contract labor dollars (excluding any burdens or profit/fee); and

(3) Either of the following conditions exists:

efficient utilization of resources.

5.3 Laboratory Maintenance

The Contractor shall maintain, troubleshoot, and repair all installation-provided equipment. This includes the custodial care and property management of assigned laboratory equipment, housekeeping, maintaining chemical and other inventories, tracking and scheduling routine maintenance, preparation and/or update of existing Periodic Maintenance Instructions (PMIs), ensuring equipment is in calibration and operational status, and recommending replacement or upgrade of assigned equipment, as required.

The Contractor shall be responsible for development, documentation, and in-service inspection and certification of specific laboratory and facility systems as assigned by Task Order.

The Contractor shall ensure the timely calibration of non-installation provided property assigned by Task Order. This will involve the pick-up, delivery and tracking of all equipment requiring calibration.

The Contractor may use the government furnished Work Control System (WCS), a custom, web-accessible database. KSC's base operations contractor performs the actual calibration of equipment, but the Contractor shall perform or procure calibration of equipment where the base operations contractor lacks adequate capabilities.

The Contractor shall develop and maintain documentation of laboratory policies, training materials, safety materials, equipment performance and usage, in accordance with NPD 1440.6F, NASA Records Management.

The Contractor shall identify, acquire, and manage the necessary laboratory supplies, equipment, and consumables necessary to sustain the general capability intended for the facilities and laboratories, as well as specific items necessary for experimental or test activities within the labs.

6.0 TECHNICAL SERVICES

The Contractor shall provide the following types of services, as defined by individual Task Orders:

6.1 Technical Writing, Multimedia, Illustrating, Engineering Drafting, and Computer Aided Design

The Contractor shall provide turnkey support integrating technical writing/editing and technical illustration in the production of various engineering and technology documents, reports, operation and maintenance manuals, strategic plans and presentations related to contract activities. Multimedia development and support includes graphics and presentation design, minor photographic and video support, and web site design and development.

The Contractor shall prepare or assist in preparing engineering drawings, block diagrams, schematics, printed circuit layouts, parts lists, layouts, and other associated

2. This contract modification incorporates the following changes to the contract:

   a. Section B, SUPPLIES OR SERVICES AND PRICE/COST, is amended to update clause B.2, Contract Value, Award Fee, and Incentive Fee to reflect the current estimated cost and fees for the work authorized by the task orders identified in contract attachment J-10, the contents of which are hereby incorporated by reference. In addition, this modification adds funding to the contract in the amount of $641,201 for a total contract obligation amount of $36,600,831.28. The funding is considered to be adequate for contract performance through October 8, 2004.
   b. Section J, LIST OF ATTACHMENTS, Attachment J-10, Contract Value, Award Fee, and Incentive Fee, is being updated to reflect the current estimated cost and fees for work authorized by task orders issued under the contract, the contents of which are hereby incorporated by reference.
   c. All other terms and conditions remain unchanged.

3. The following page changes shall be made to the contract to incorporate the above modifications:

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Table B-1

Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Table B-1

Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

* Equals sum of the contract period AIF for all task orders issued within each contract period. However, if unearned IF is carried over to a subsequent period, then the AIF will equal the value of the carried over IF plus the AIF for all task orders issued within that contract period.

** Equals sum of all WFO completed during the contract period.

*** Earned-to-Date means as of the contract modification reflected in the upper corner of this page.

Contractor shall (1) notify the Contracting Officer reasonably in advance and (2) submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on this contract.

(b) The Contractor shall make no diversion without the Contracting Officer's written consent; provided, that the Contracting Officer may ratify in writing the proposed change, and that ratification shall constitute the Contracting Officer's consent required by this clause.

(c) The list of personnel and/or facilities (shown below or as specified in the contract Schedule) may, with the consent of the contracting parties, be amended from time to time during the course of the contract to add or delete personnel and/or facilities.

H.6 PENSION PORTABILITY (NASA 1852.237-71)(JAN 1997)

(a) In order for pension costs attributable to employees assigned to this contract to be allowable costs under this contract, the plans covering such employees must:

(1) Comply with all applicable Government laws and regulations;

(2) Be a defined contribution plan, or a multiparty defined benefit plan operated under a collective bargaining agreement. In either case, the plan must be portable, i.e., the plan follows the employee, not the employer;

(3) Provide for 100 percent employee vesting at the earlier of one year of continuous employee service or contract termination; and

(4) Not be modified, terminated, or a new plan adopted without the prior written approval of the cognizant NASA Contracting Officer.

(b) The Contractor shall include paragraph (a) of this clause in subcontracts for continuing services under a service contract if:

(1) The prime contract requires pension portability;

(2) The subcontracted labor dollars (excluding any burdens or profit/fee) exceed $2,500,000 and ten percent of the total prime contract labor dollars (excluding any burdens or profit/fee); and

(3) Either of the following conditions exists:

performing services, or for any administrative or general plant purpose), special tooling and special test equipment. Facilities do not include materials.

Government Material -- Property that may be incorporated into or attached to an end item or consumed or expended during manufacture, testing or providing services.

B. AGREEMENTS & APPROVALS

The Contractor shall obtain approval of the Contracting Officer for Work for Others (WFO) before committing to perform the work. The Contractor shall informally partner with the Government to identify and discuss potential WFO as far in advance of seeking formal approval as is practical. The Contractor shall obtain formal approval for each instance of WFO by submitting a written request to the Contracting Officer which, at a minimum, shall contain the following information, terms, and conditions:

1. Name and address of the customer.
2. Description of the work to be performed and estimated contract value.
3. Identification of the KSC resources/facilities and Government personnel required for accomplishing the work (including the estimated number of labor hours and estimated cost of support needed).
4. An explanation of the unique nature of the Government-owned facilities and/or USTDC/Government expertise (or combinations thereof) that is not available from commercial sources and justify acceptance of the work.
5. Schedule for accomplishment of the work and impact, if any, on other ongoing activities.
6. Certification that the following terms and conditions are flowed down, when applicable, to the proposed WFO agreement:

   H.18 "Work for Others," subparagraphs (D) Priority of Use, (E) Liability and Risk of Loss, (F) Intellectual Property, Patent & Invention Rights, (G) News Releases & Publications, (H) Security & Export Control, (I) Safety & Health, (J) Independence of Contracts; and other clauses as may be required by the Contracting Officer.

7. A copy of the WFO draft agreement, if available. If the draft agreement is not available prior to submittal of the request, the Contractor will provide a copy of the agreement to the Government before commencement of work.

C. FINANCIAL OBLIGATIONS

1. General

   a. The Contractor shall provide consideration to NASA KSC in connection with Government-provided property and services utilized for Work for Others under the authority of this provision. Pursuant to the direction of the Contracting Officer, consideration may be in the form of cash payment from the Contractor to NASA KSC or a credit to the Government under the USTDC contract.

b. The specific cost components, reimbursement procedures, methodologies, and points of contact and authorities will be established annually in a written procedure.

Generally, reimbursable and creditable costs will include, but may not be limited to the following categories:

- Rent or other appropriate consideration for use of Government property in accordance with FAR 45.403 and FAR 45.404(c).

- Actual cost of Government personnel directly supporting a project (including payroll additives, fringe benefits and G&A).

- Actual cost of Government-provided material, utilities, support services and appropriate overheads.

2. Reimbursement of Government Direct Labor and Other NASA Costs

a. The Contractor will be required to forward advance payments to NASA for all estimated NASA reimbursable costs prior to commencement of work associated with an approved WFO project. For multi-year WFO projects, the Contractor may propose an alternate payment schedule subject to the approval of the Government.

b. Payment shall be made in the form of a check payable to "NASA Kennedy Space Center" and sent to:

National Aeronautics and Space Administration
John F. Kennedy Space Center
"Collections Agent"
Mail Code: GG-B-C
Kennedy Space Center, FL 32899

c. NASA KSC's activities under or pursuant to this provision are subject to the availability of appropriated funds, and no provision herein shall be interpreted to require obligations or payment of funds in violation of the Anti-Deficiency Act, 31 U.S.C. § 1341.

D. PRIORITY OF USE

It will be the Contractor's overall responsibility to schedule and manage use of assigned Government-furnished facilities to accommodate contract work and Work for Others in a manner to assure the timely, within cost, delivery of quality products and services for all. Since Work for Others projects are subject to Government approval and each request for approval will address scheduling issues, scheduling and priority of use conflicts should be rare. However, in the event circumstances should arise in which the Government requires use of facilities and/or personnel scheduled for use on Work for Others, the Contracting Officer will direct that the Government work shall take

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

2. This contract modification incorporates the following changes to the contract:

   a. Section J - LIST OF ATTACHMENTS; Attachment J-1, Appendix A, Data Requirements List is amended to incorporate a revised DRD 005 Contractor Financial Management Report (NASA Form 533M) and a new DRD 016 entitled Technology Outreach Program Status Report.
   b. Section J – LIST OF ATTACHMENTS; Attachment J-5, Task Order Pricing Rate Schedule is amended to update Sierra Lobo's J-5C rate schedule. The update adds a new labor classification for Engineer V.
   c. Section J – LIST OF ATTACHMENTS; Attachment J-8, ASRC Team Investment Profile is updated to reflect ASRC Aerospace's assumption of the commitments made by former USTDC Team Member Swales Aerospace. In addition, the commitment made by the University of Florida (U of F) is being deleted as U of F is no longer the lead university-affiliate on the USTDC.
   d. This modification adds funding to the contract in the amount of $3,073,269 for a total contract obligation amount of $23,665,178. The funding is considered to be adequate for contract performance through April 5, 2003.

All other terms and conditions remain unchanged.

3. The following page changes shall be made to the contract to incorporate the above modifications:

Section B

Replace page 13 with the attached revised page 13.

8. PREPARATION INFORMATION

A. Prepare NASA Form 533 M per instructions referenced above (NPG 9501.2D). Refer to sample 533 reporting format for desired report periods and cost elements to be presented. In addition, the contractor will be required to report hours and costs for both actual and planned elements for the government fiscal year to date as well as provide an "all years" projection (which includes the estimate to complete, target value, and the total obligation amount). In preparing the NASA Form 533 M, the contractor will also provide the "Unfilled Orders" to be used to determine the estimated amount of outstanding or encumbered ODCs on the contract for the current fiscal year.

B. The NF 533 Q reporting has been waived by the NASA Contracting Officer, with concurrence by the Center Chief Financial Officer and cognizant Project Manager.

C. NF 533 M reporting must begin not later than 30 days after incurrence of cost. Subsequent NF 533 M reports shall be furnished not later than 10 working days following the close of the Contractor's monthly accounting period.

D. Adjustments to prior period's costs and/or workforce, recorded during the reporting period, will be included in the reporting month's (i.e., last closed accounting period) actual cost and cumulative cost columns of the applicable report. The adjustments shall be itemized/explained in the narrative part of the report.

(See Continuation Page)

Block 8. Preparation Information Continued.

E. The Contractor shall additionally provide data, exclusive of narrative remarks, on electronic medium. The Contractor and NASA will jointly pursue the use of available technologies and transmission capabilities to facilitate electronic reporting, which NASA will be phasing into a contractor 533 electronic submission into SAP, and will endeavor to provide electronic reporting earlier than the standard due dates. The Contractor shall utilize and maintain the existing NASA owned, Contractor Operated accounting system (Costpoint), and the 533 Generator and Accrual systems software that produces 533 reports. Compatibility must be maintained with the FoxPro Accrual program utilized by the NASA Resources Management Office (RMO).

F. The Contractor shall furnish to distribution (box K of DRD), with the initial NF 533 M, the Contractor's accounting calendar that lists the accounting periods, number of work days included in each period, and all holidays. All subsequent revisions shall be provided at the time of the change. At a minimum, an updated accounting calendar will be distributed to all at the beginning of each government fiscal year.

G. Data elements listed in this DRD will be reported under the following categories:

1. Total Contract Summary
2. Indirect Cost Summary
3. Task Order Summary by Appropriation, Numbers and Nomenclature
   a. Program Summaries
   b. Task Order Detail Summaries
   c. Closed Task Order List
   d. Summary of Closed Task Orders
4. Task Order Numbers and Titles

H. Contractors are required to indicate full incurred costs on the NF 533 Report. They should also show the amount of discounts offered to and taken by NASA. At the end of each fiscal year, upon submittal of final indirect cost rates, provisional billing rates shall be changed to the proposed final rates. The Contractor shall include all adjustments in the current month actual costs and cumulative cost columns (consistent with paragraph D. above in box 8) on the NF 533 M, itemizing adjustments in an addendum to the NF 533 M.

I. Cost figures will be reported to the nearest whole dollar, and equivalent headcount will be reported to the nearest tenth. Hours will be reported to the nearest whole hour.

J. Subcontractors will provide 533 reports to the prime Contractor in the same format as required by this DRD for the applicable data elements and categories. The prime Contractor shall ensure that subcontract data are available in sufficient time for inclusion in the prime Contractors' NF 533 report for the same reporting period. The prime Contract may call for copies of subcontractor reports to be submitted to NASA.

K. Indirect costs (such as Non-Task Order related ODC) shall be allocated to the applicable Task Orders based on acceptable accounting practices and statistical techniques. A complete breakdown of all elements of indirect cost and allocation methods will be required. Specific percentages and distributions must be approved by NASA prior to implementation.

L. Each NF 533 M shall contain a next month estimate for all anticipated hours and costs. The next month's estimate for hours and cost, as well as the estimate to complete, should be a "true" forecast which should take under consideration all potential changes, schedule slips, or delivery slips. The contractor shall ensure that the September year end 533 provides an estimate through September 30 of the same year. This will be needed to close out the fiscal year of performance.

M. The Contractor shall provide with the NF 533 M, a variance analysis by amount and percent for each element of cost, of the difference between the estimate for the month (made in the previous month) and the actual for the month being reported in the current NF 533 M. This variance analysis will be required for the Contract Summary, as well as for each Appropriation Summary. In addition, the Contractor shall provide a narrative summary of each data element and explain the reason(s) for the variance. For any indirect rates (such as overhead, G&A, etc.) charged to the contract, the Contractor is to identify in the narrative to the NF 533 M the provisional billing rates and cumulative actual rates for the contract.

DRD005 – Contractor Financial Management Report CONTINUATION SHEET

O. SELECTED DATA ELEMENT DEFINITIONS Elements of cost are defined in general in NPG 9501.2D. This Center feels that additional explanations are necessary for the items listed below, in order to ensure clarity.

1. Straight Time Hours – Those hours, exclusive of non-productive hours, which are worked by direct labor personnel. No paid overtime hours are to be reported in this category.
2. Overtime Hours - Those premium hours incurred by direct labor personnel. Non-paid overtime hours are not to be reported in this category.
3. Equivalent Direct Headcount - The average number of personnel directly performing a specific task or contract (does not include indirect personnel), for a given length of time, and is usually expressed as a monthly average. It is further defined as:

$$\text{Direct Headcount} = \frac{\text{Straight Time Direct Hours}}{\text{(Number of Productive Hours)}}$$

4. Equivalent Indirect Headcount - The average number of indirect personnel. Population less direct headcount.
5. Equivalent Population - The average number of contractor personnel located at KSC during the month. The total of Direct and Indirect Headcount. It is further defined as:

$$\frac{\text{Straight Time Direct Hours + Indirect Hours}}{\text{(Number of Productive Hours)}}$$

6. Equivalent Overtime Headcount –

$$\text{Equivalent Overtime Headcount} = \frac{\text{Total Paid Overtime Hours Expended}}{\text{(Number of Productive Hours)}}$$

7. Overtime Rate Percent -

$$\text{Overtime Rate} = \frac{\text{Overtime Hours Expended}}{\text{Straight Time Hours}}$$

8. Target Value – Total estimated cost and fee negotiated for Task Orders issued under the contract.
9. Estimate to Complete (ETC) – Life-to-date actuals plus forecast of all years to completion.
10. Total Obligation Amount – Total amount of funding obligated on Contract. (Table B-4) (Summary Page)
11. Contract Value/Target – Value of all authorized task orders as reflected in the most recent Contract Modification(s). Table B1 (Summary Page)
12. Billings – Invoice amounts billed (year to date total cost w/G&A); total payments received plus discounts. (Summary Page)
13. Baseline Plan – For all years (current agreement of scope). (Summary and Detail Pages)
14. Funding Limit – Authorized total amount of funding obligation to contract (Detail Pages)

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

1. This modification incorporates the performance rating, numerical score, and the earned award fee for the performance evaluation period of March 1, 2003 through September 30, 2003.

(See Continuation Page)

Except at provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

2. Pursuant to contract clause G.2, NFS 1852.216-76, AWARD FEE FOR SERVICE CONTRACTS (JUN 2000)(MODIFIED), this contract modification incorporates an adjective rating of Excellent, a performance rating of 92, and earned award fee of $595,742 for the period of March 1, 2003 through September 30, 2003. There were no provisional award fee payments made during this evaluation period, therefore the **NET AMOUNT DUE is $595,742**. Contract tables B-1, B-2, and B-4 are updated to reflect earned award fee and a reduction in contract value resulting from the loss of unearned award fee for this period.

3. The following page changes shall be made to the contract to incorporate the above modifications:

Sections A through J

Replace page 5 with the attached revised page 5.
Replace page 7 with the attached revised page 7.
Replace page 13 with the attached revised page 13.

4. All other contract terms and condition remain unchanged.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Table B-1

Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

   a. This modification adds funding to the contract in the amount of $1,813,245 for a total contract obligation amount of $11,230,969. The funding is considered to be adequate for contract performance through September 3, 2003.
   b. Section B, SUPPLIES OR SERVICES AND PRICE/COSTS, is amended to update clause B.2, Contract Value, Award fee, and Incentive Fee to reflect the current estimated cost and fee for the work authorized by the task orders identified in contract attachment J-10, the contents of which are herein incorporated by reference.
   c. Section G, Contract Administration Data, is amended to add clause G.7 RENT-FREE USE OF GOVERNMENT FURNISHED PROPERTY (GFP).
   d. Section H, Special Contract Requirements, is amended to add clause H.22 NASA SYSTEM ADMINISTRATOR SECURITY CERTIFICATION PROGRAM.
   e. Section J, Attachment J-1, Appendix A, Data Requirements List, is amended to add DRD 023, Advanced Notifications of Workforce Reductions.
   f. Section J is amended to add contract attachment J-10, USTDC Contract Value, Award Fee, and Incentive Fee.

All other terms and conditions remain unchanged.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Table B-1

Contract Value

Contract Period	Estimated Cost*	Award Fee**	Incentive Fee***	Contract Value
Base Period	(b)(4)			
03/01/03 to 9/30/07				$14,881,544
Option 1				
10/01/07 - 9/30/08				
Option 2				
10/01/08 - 9/30/09				
Option 3				
10/01/09 - 9/30/10				
Option 4				
10/01/10 - 9/30/11				
Option 5				
10/01/11 - 9/30/12				
Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

*Adjusted target cost equals the sum of the adjusted target costs for all task orders issued within each contract year.

**AAF equals the sum of the AAF for all task orders issued within each contract year.

Totals:			

* Equals sum of the contract period AIF for all task orders issued within each contract period. However, if unearned IF is carried over to a subsequent period, then the AIF will equal the value of the carried over IF plus the AIF for all task orders issued within that contract period.

** Equals sum of all WFO completed during the contract period.

*** Earned-to-Date means as of the contract modification reflected in the upper corner of this page.

B.3 CONTRACT FUNDING (NFS 18-52.232-81) (JUN 1990)

(a) For purposes of payment of cost and fees in accordance with the Limitation of Funds clause, the total amounts allotted by the Government to this contract, and the period of performance through which it is estimated these funds will cover, are specified in Table B-4.

Table B-4

Contract Mod#	CONTRACT FUNDING					
	Estimated Cost	Award Fee	Incentive Fee	Total Cost & Fee	Adequate through date	Contract Value
1	(b)(4)			$4,334,267	4/30/2003	$4,334,267

Total Amount	$			$11,230,969	9/03/2003	$14,881,544

The Contractor agrees to make every reasonable effort to anticipate and make known to the Government what its requirements are sufficiently in advance to permit the Government to fulfill them in a timely manner in order to minimize Contractor procurement.

Items generally considered "Fixtures" (e.g., becomes a part of the premises when installed, such as water coolers, air-conditioners, partitions) shall not be purchased by the Contractor under the authority of this clause. Additionally, items of a capital nature shall not be purchased under the authority of this clause without the prior written approval of the Contracting Officer.

G.7 RENT- FREE USE OF GOVERNMENT FURNISHED PROPERTY

The contractor may enter into arrangements with other on-site contractors to perform certain work in furtherance of Kennedy Space Center (KSC) objectives. To this end, the contractor is authorized to use, on a rent-free non-interference basis, the Government-furnished property and facilities provided under this contract when performing work subject to these arrangements. The Government may unilaterally withdraw this authority without adjustment to any other provisions of this contract. All other non-USTDC use of Government Property accountable to this contract will be subject to rental charges as established in accordance with FAR 52.245-9, Use and Charges (APR 1984) unless the Contracting Officer specifically authorizes rent-free use.

[END OF SECTION]

H.20 ESTABLISHMENT OF THE SPACEPORT RESEARCH AND TECHNOLOGY INSTITUTE (SRTI)

The Contractor shall be responsible for establishing the Spaceport Research and Technology Institute (SRTI). In addition, the Contractor shall engage the Director of SRTI within six to eight months of contract award. For six to eight months, the Contractor shall provide an Interim Director of SRTI, located primarily at Kennedy Space Center (KSC). Both the Permanent Director of SRTI and the Deputy Director of SRTI shall be located full time at the Kennedy Space Center (KSC).

H.21 ASRC TEAM INVESTMENT PROFILE

The contractor shall provide the specific features and activities of it's investment commitment as described in Section J, Attachment 8.

H-22 NASA SYSTEM ADMINISTRATOR SECURITY CERTIFICATION PROGRAM

1. In addition to any other requirements of this contract, all individuals who perform tasks as a system administrator or have authority to perform tasks normally performed by a system administrator shall be required to demonstrate knowledge appropriate to those tasks. This demonstration, referred to as the NASA System Administrator Security Certification, is a NASA funded two-tier assessment to verify that system administrators are able to: a) Demonstrate knowledge in system administration for the operating systems for which they have responsibility and b) Demonstrate knowledge in the understanding and application of Network and Internet Security.

2. Certification is granted upon achieving a score above the certification level on both an Operating System test and the Network and Internet Security Test. The Certification earned under this process will be valid for three years. The NASA Chief Information Officer has established the criteria for this skills assessment. The objectives and procedures for this certification can be obtained by contacting the IT Security Awareness and Training Center at (216) 433-2063.

3. A system administrator is one who provides IT services, network services, files storage, web services, etc. to someone else other than themselves and takes or assumes the responsibility for the security and administrative controls of that service or machine. A lead system administrator has responsibility for information technology security (ITS) for multiple computers or network devices represented within a system; ensuring all devices assigned to them are kept in a secure configuration (patched/mitigated); and ensuring that all other system administrators under their lead understand and perform ITS duties.

4. The Contractor shall report their progress towards achieving certifications in their quarterly Internal Surveillance Report, DRD-003. The information shall include the number of individuals requiring certification and the number certified.

2. The additional labor classifications are needed to reflect the proper education, experience, and skills of the incumbent workforce hired to support the USTDC. The inclusion of the new labor classifications will allow development of more accurate cost estimates for use in pricing Task Orders issued under the contract. The M&A rate is being revised to reflect re-allocations of labor positions between direct charge and indirect pools, adds Other Direct Charges (ODCs) allocable to M&A, and adjusts the M&A direct labor hour base to reflect a reduction in the level of work being accomplished on the contract. Contract clause B.7 is amended to clarify responsibilities and procedures on establishing contract provisional indirect billing rates.

3. All other terms and conditions of the contract remain unchanged.

4. The following page changes shall be made to the contract to incorporate the above modifications:

Section B

Replace page 15 with the attached revised page 15.

ability to achieve contract goals/metrics established for these areas, along with a review of the Contractor's overall performance, will be a key determinant in the Government's decision to exercise any contract option.

B.6 TASK ORDER PRICING

Task Orders will be issued in accordance with NFS clause 1852.216-80, Task Ordering Procedure (OCT 1996). The Contractor agrees to use the direct labor and indirect rates established in contract attachment J-5, Task Order Pricing Rate Schedule, as the basis for establishing the estimated cost of individual orders, together with any other costs specific to the order.

B.7 SPECIAL COST PROVISIONS (KSC 52.231-90) (DEC 2000) (MODIFIED)

Pursuant to the terms of the contract FAR clause 52.216-7 entitled "Allowable Cost and Payment", the contractor shall be reimbursed for such actual and allowable expenditures incurred in the performance of work required by this contract as may be approved by the Contracting Officer, subject to the following limitations and provisions:

(a) TRAVEL
Pursuant to Title 11, Section 21 of the Federal Civilian Employee and Contractor Travel Expense Act of 1985 (PL 99-234), reimbursement for travel shall be in accordance with the provisions of FAR 31.205-46. Travel required in performance of work under this contract shall be in accordance with the Contractor's approved travel policy.

(b) PROVISIONAL INDIRECT BILLING RATES

The responsibility to establish provisional indirect billing rates for this contract has been delegated to the Defense Contract Management Agency (DCMA). The Contractor shall submit a proposal for the next fiscal year's provisional indirect billing rates to the cognizant Administrative Contract Officer (ACO) at least 90 days prior to the beginning of the coming fiscal year. If during the course of any particular year a significant disparity should arise between the approved provisional billing rates and the actual rates, the Contractor shall submit a proposal requesting consideration for revision of the provisional rates to ones more closely reflective of the actual rates anticipated for the year.

(c) RELOCATION COSTS
Reimbursement for relocation costs shall be in accordance with the provisions of FAR 31.205-35. No relocation costs will be reimbursable under this contract for employees whose residence at the time of hiring or assignment to this contract was within a fifty (50) mile radius of Kennedy Space Center, Florida. In no event shall the average reimbursement for relocation costs exceed the following ceiling:

15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
(Signature of person authorized to sign)	4/24/2003	BY (Signature of Contracting Officer)	4-24-03

2. This modification adds funding to the contract in the amount of $2,208,012 for a total contract obligation amount of $6,542,279. The funding is considered to be adequate for contract performance through May 30, 2003. Contract value is also increased by $2,208,012 to reflect the estimated cost and fee for work during the initial 90-day period of contract performance as authorized under Task Orders 0001 and 00134, the contents of which are incorporated herein by reference.

3. The contract is further amended as follows:

a. Section H, clause H.2 Special 8(a) Contract Conditions (FAR 52.219-11) (Feb 1990), paragraph (a) is amended to reflect a change in the cognizant SBA District Office.

b. Section H, clause H.18 Work For Others, paragraph F.10, is amended to correct an erroneous reference to other paragraphs within the clause.

c. Section J, Table of Contents, is amended to incorporate a new contract attachment J-9, DD 254 Contract Security Classification Specification.

d. Section J, Attachment J-1 Appendix A is amended to remove the requirement for DRD 016, Information Technology (IT) Plan and to remove the reference to the "Draft" Performance Surveillance and Award Fee Plan from DRD 002 Internal Surveillance Plan. The reference should be to the contract Performance Surveillance and Award Fee Plan, contract attachment J-3.

e. Section J, Attachment J-1 Appendix B, is amended to add NPG 6200.1A NASA Transportation and General Traffic Management to the list of contract applicable documents.

f. Section J, Attachment J-3, USTDC Performance Surveillance and Award Fee Plan, paragraph IV.B., is amended to clarify the methods utilized to inform the Contractor of changes in specific metrics or directed areas of emphasis. The language is being amended to allow either revision to the Performance Surveillance and Award Fee Plan or other written communications to convey changes to the Contractor.

4. All other terms and conditions of the contract remain unchanged.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

Table B-1

Contract Value

Contract Period	Estimated Cost*	Award Fee**	Incentive Fee***	Contract Value
Base Period				
03/01/03 to 9/30/07	(b)(4)			$6,542,279

Option 4				
10/01/10 - 9/30/11				
Option 5				
10/01/11 - 9/30/12				
Totals:				

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.

Totals:			

* Equals sum of the contract period AIF for all task orders issued within each contract period. However, if unearned IF is carried over to a subsequent period, then the AIF will equal the value of the carried over IF plus the AIF for all task orders issued within that contract period.

** Equals sum of all WFO completed during the contract period.

*** Earned-to-Date means as of the contract modification reflected in the upper corner of this page.

B.3 CONTRACT FUNDING (NFS 18-52.232-81) (JUN 1990)

(a) For purposes of payment of cost and fees in accordance with the Limitation of Funds clause, the total amounts allotted by the Government to this contract, and the period of performance through which it is estimated these funds will cover, are specified in Table B-4.

H.2 SPECIAL 8(a) CONTRACT CONDITIONS (FAR 52.219-11) (FEB 1990) (DEVIATION)

(a) This contract is issued as a direct award between the contracting activity and the 8(a) contractor pursuant to a Memorandum of Understanding between the Small Business Administration (SBA) and the National Aeronautics and Space Administration. Accordingly, the SBA is not a party to this contract. SBA does retain responsibility for 8(a) certification, 8(a) eligibility determinations and related issues, and providing counseling and assistance to the 8(a) contractor under the 8(a) program. The cognizant SBA district office is:

U.S. Small Business Administration
Alaska District Office
510 L Street, Suite 310
Anchorage, AK 99501

distribute, and prepare derivative works for any of its own purposes whatsoever.

6. Disclaimer of Liability:
Notwithstanding the above, NASA shall not be restricted in, nor incur any liability for, the disclosure and use of Data not identified with a suitable notice or legend as set forth in paragraph 3 above. Information contained in any data for which disclosure and use is restricted under paragraphs 2 and 3 above, if such information is or becomes generally known without breach of the above, is known to or is generated by NASA independently of carrying out NASA's responsibilities in support of Work for Others, is rightfully received from a third party without restriction, or is included in data which the Contractor and/or other party(s) has, or is required to furnish to the U.S. Government without restriction on disclosure and use.

7. Data Subject to Export Control:
Technical data, whether or not specifically identified or marked, that is subject to the export control laws and regulations of the United States and that is provided to the Contractor and/or other party(s) in support of Work for Others will be treated as such, and will not be further provided to any foreign persons without proper U.S. Government authorization, where required.

8. NASA Inventions:
NASA will use reasonable efforts to report inventions made by NASA employees as a consequence of the performance of specified NASA activities in support of Work for Others. Upon request, NASA will use reasonable efforts to grant the Contractor and/or other party(s), in accordance with the requirements of 37 CFR Part 404 an exclusive, irrevocable, royalty-free license, except for the repayment of U.S. Government prosecution costs, on terms to be subsequently negotiated to any NASA invention that may be in support of Work for Others and on which NASA decides to file a patent application. This license will be subject to the rights reserved in paragraph 10, below.

9. Joint Inventions with Contractor and/or other party(s):
NASA and the Contractor and/or other party(s) agree to use reasonable efforts to identify and report to each other any inventions made jointly between NASA employees and employees of the Contractor and/or other party(s). Upon request, NASA will agree to refrain from exercising its undivided interest in a manner inconsistent with the Contractor and/or other party(s) commercial interests and to cooperate with the Contractor and/or other party(s) in obtaining patent protection on the Contractor and/or other party(s) undivided interest, subject to the applicable rights reserved in paragraph 10, below.

10. Rights to be Reserved in the Contractor and/or Other Party(s) License:
Any license granted to the Contractor and/or other party(s) pursuant to paragraphs 8 or 9 above will be subject to the reservation of the following rights:

8. Preparation Information

In accordance with the Performance Surveillance and Award Fee Plan, identify and describe the key performance indicators (metrics) and associated standards to be used internally to improve the quality of products and services provided, and also by the Government to periodically assess contract performance, in each of the following critical areas:

- Safety, Reliability and Quality Assurance
- Task Order Performance
- Milestone performance
- Cost Performance / Control
- Technology Reporting
- University affiliation participation
- Technology Outreach

(See continuation sheet)

Block 8. Preparation Information Continued.

Describe how metrics, both contract level and those required by specific Task Orders, will be collected and validated. Describe how the metrics data will be reported to the Government, or otherwise available for NASA review and insight.
Discuss your approach to surveillance and/or measurement of other significant areas of contractor performance, such as, but not limited to:

- Business Management Systems
- Customer Satisfaction
- Resource Management
- Records Management
- Reporting / Deliverables
- Environmental
- Continuous Improvement
- ISO9001:2000 compliance
- VPP compliance
- Equal Opportunity
- Quality & Reliability
- Risk Management
- Labor Relations
- Technology Awards
- Commercialization
- Effectiveness of Outreach program
- Procurement Performance Metrics
- Small Business Subcontracting
- Property and Supply Management
- Customer Complaints
- Housekeeping

In accordance with the Performance Surveillance and Award Fee Plan, for each contract level metric proposed, define a measurable standard of performance (SOP) that reflects exemplary performance (deserving of a rating of 95), and an Acceptable Quality Level (AQL) that reflects satisfactory performance (deserving a rating of 65).

When standards of performance and/or acceptable quality levels cannot be defined adequately, trend metrics may also be proposed to provide insight into performance. If an area of performance is not readily quantifiable, or if the effort and/or cost of measurement cannot be justified other, more qualitative surveillance techniques may be proposed.

Describe your approach to providing and presenting a Internal Surveillance Report (Self Assessment) of contractor performance per the PWS and DRD003.

Note: The Performance Surveillance and Award Fee Plan will be updated after contract award to reflect the agreed metrics and standards.

Task Order Managers, the CTM will collect metrics contract wide for consideration in the award fee evaluation.

IV. Award Fee Evaluation

Award fee determinations will be based on both objective contractor provided performance metrics and subjective judgments by the Government of the contractor's performance using the surveillance tools, procedures and evaluation criteria as specified in this Performance Surveillance and Award Fee Plan.

For the purpose of award fee determinations on this contract, the procedures indicated below will be followed.

A. General

Award fee will be determined annually by the Fee Determination Official (FDO) who is Chairperson of the Contract Award Fee Board (CAFB). The CAFB is comprised of the FDO, the Spaceport Engineering and Technology Director, other line management directors, the Director of Safety and Mission Assurance, the Procurement Officer or Deputy, and the NASA/KSC Chief Financial Officer or designee.

The award fee will be determined based upon a review by the CAFB of the consolidated recommendation prepared by the Contract Technical Manager (CTM), the Contracting Officer (CO), and the Contractor's additional data, if any.

The CTM will be the focal point for the accumulation and development of award fee evaluation reports, reviews, and presentations as well as discussions with Contractor management on award fee matters.

B. Evaluation Criteria

Evaluation criteria encompass the safety, quality, timeliness, efficiency, and cost effectiveness of the Contractor's performance of contract requirements, as detailed in this plan. Any changes to the specific metrics or other areas of directed emphasis will be identified and communicated to the Contractor at least fifteen (15) days prior to the start of the evaluation period by revision of this plan or by other written communication.

The CO or CTM may notify the Contractor at a later date of alterations in areas of emphasis (including additions or deletions). Such alterations will be prospective and will allow the Contractor time to react or implement the alterations.

C. Reviews

The Contractor's performance will be reviewed in the manner described below.

1. Concurrent Reviews

Contractor performance levels which require remedial attention or which may be expected to adversely affect award fee ratings will be made known to the Contractor by the CTM (either orally or in writing) on a current basis, as necessary.

B.2 CONTRACT VALUE, AWARD FEE, AND INCENTIVE FEE

(a) Contract Value

The Contract Value is comprised of the estimated cost, award fee, and incentive fee reflected in Table B-1, Contract Value. The adjusted target cost for award fee performance evaluation purposes, the amount of available award fee (AAF), and the earned award fee (EAF) are reflected in Table B-2, Adjusted Target Cost & Award Fees. The available incentive fee (AIF) and earned incentive fee (EIF) are reflected in Table B-3, Incentive Fee.

*Estimated cost will initially equal the adjusted target cost plus other direct costs. However, as actual costs are reported, projected and/or finalized for CY1 the estimated cost will be adjusted accordingly. Subsequently the estimated cost will equal the "adjusted" estimated cost for CY1 plus the target cost for the subsequent CY until such time as the subsequent CY's target cost is "adjusted." This process will be repeated throughout the contract.

**Award fee equals the sum of the available award fee for the current contract year plus the earned award fee for completed contract years as reflected in Table B-2.

*** Incentive fee equals the available incentive fee for the current contract period plus the earned incentive fee from completed contract periods as reflected in Table B-3.
